

MAINTENANCE OF CAPITAL ASSETS.

Once the Machinery like Computers, Fax Machines, Photostat Machines etc. have been purchased for the Head office, Divisional Offices and District Offices. These machinery items may remain out of order if the repair is not done in time. Moreover these machinery items may not be purchased yearly/quarterly. As the Department is carved out in far flung areas of the state and most of the Training Centers are existing in the remote/ hilly area of the state which requires constant monitoring. The Department intends to repair/procure equipments like Computers, Fax Machines, Photostat Machines etc for field functionaries of the Department. Moreover looms, sewing machines, warping drums etc used for training of trainees in the 109 training centers of the Department also need time to time repairs.
